SUMMARY

Results-driven Senior MuleSoft Consultant with over 9 years of experience in integration architecture, governance, and end-to-end delivery using the MuleSoft Anypoint Platform. Proven ability to lead scalable, API-led, and multi-cloud integration solutions while ensuring performance, compliance, and innovation excellence.

Recognized for mentoring teams, driving automation, and aligning technology delivery with strategic business objectives. Adept at AI-enabled solutioning, integration modernization, and cross-functional collaboration that results in measurable business outcomes.

LEADERSHIP HIGHLIGHTS

- **Delivery Excellence:** Consistently achieved CSAT 5/5 with zero project escalations, driving a culture of precision, accountability, and best practice adherence.
 - **Innovation & Enablement:** Designed and showcased AI-powered MuleSoft automation solutions and led enablement sessions on Agentforce and Hyperautomation for partner communities.
 - **Mentorship & Talent Growth:** Actively mentored peers through the MuleSoft Ambassador and TrailGuide programs, supporting capability building across teams.
 - **Cross-Functional Collaboration:** Partnered with Salesforce Product and Engineering teams to deliver TMF APIs and a notification framework for the Communications Cloud GA release.
 - **Governance & Risk Management:** Implemented structured governance frameworks for delivery assurance, issue escalation, and operational hygiene across integration programs.
-

TECHNICAL SKILLS

- **Integration Platforms:** MuleSoft Anypoint Platform (CloudHub, Runtime Fabric, API Manager, Exchange, Runtime Manager), Azure Integration Services, Google Cloud Platform
- **API & Architecture:** API-led Connectivity, API Governance, RAML, REST, SOAP, Integration Patterns (Request-Reply, Publish-Subscribe, Scatter-Gather, Batch), API Lifecycle Management
- **Testing & Automation:** MUnit, Jenkins, Azure DevOps, CI/CD Pipelines, Automated Deployments
- **Programming & Data:** DataWeave, Java, JSON, XML, MySQL, MongoDB, ETL Design Patterns
- **Security & Standards:** OAuth 2.0, JWT, OpenID Connect, SAML, API Policies & Compliance
- **Cloud & Infrastructure:** Salesforce, AWS, Azure, GCP, Hybrid & Runtime Fabric Deployments
- **AI & Automation Tools:** Einstein GPTI, Google Gemini, Slack AI, ChatGPT, Claude, Cursor AI (for intelligent coding, review, and documentation acceleration)
- **Other Tools & Practices:** Anypoint MQ, Mule Migration Assistant (MMA), SDLC, Agile & Scrum, Postman, JIRA, Confluence

PROFESSIONAL EXPERIENCE

Salesforce

Senior Technical Consultant

Jan 2024 – Present

Deloitte

Senior Technical Consultant

May 2021 – Dec 2023

Accenture

Application Development Analyst

Jan 2017 – Apr 2021

ROLES & RESPONSIBILITIES

- Architected, designed, and delivered MuleSoft-based integration frameworks ensuring scalability, performance, and maintainability across enterprise ecosystems.
- Collaborated with global stakeholders including Product Managers, Architects, and Directors to define integration strategy, design documentation (HLD/LLD), and review checkpoints aligned with global standards.
- Implemented project delivery governance frameworks ensuring adherence to timelines, risk mitigation, and compliance with PwC-grade quality standards.
- Led code governance, design reviews, and quality enforcement, ensuring reusable components, security compliance, and consistency across environments.
- Integrated complex multi-cloud systems (Salesforce, SAP, ServiceNow) via API-led and event-driven architecture to optimize business data flow and process automation.
- Developed and maintained CI/CD pipelines through Azure DevOps and Jenkins, improving deployment reliability and reducing manual effort by 40%.
- Championed AI-driven delivery by leveraging tools like Einstein GPT, Claude, Gemini, and Cursor AI to automate documentation, testing, and performance reporting.
- Mentored and coached developers to elevate code quality, documentation discipline, and architectural understanding.
- Executed multiple go-lives with 100% compliance to delivery hygiene, documentation, and audit requirements.
- Drove reusable asset creation and contributed best practices to internal repositories and Services Central.
- Contributed to strategic initiatives such as MuleSoft Hyperautomation, Multi-Cloud Enablement, and Data Cloud Readiness for future-state digital transformation programs.
- Reported delivery metrics and project health to leadership, ensuring transparency, proactive issue resolution, and alignment with business goals.
